

## 2<sup>nd</sup> Saturday Artist Market Community Support Program

The 2<sup>nd</sup> Saturday Artist Market is dedicated to promoting artists, craftspeople and musicians in an environment that offers patron-artist interaction and a diverse marketplace of hand crafted work and fine art.

The larger artistic and creative community has always been integrally connected to the communities we live in. Musicians teach in schools and community centers, artists donate their time and work for benefit events, and organize community renovation and beautification projects, to name a few.

The 2<sup>nd</sup> Saturday Artist Market strives to not only promote artists who serve the community, but also those organizations that directly serve the community. One booth space each month will be donated to a community organization, giving them a venue for direct outreach and to promote the programs and/or needs of that particular group.

In addition, the booth reserved for event producer Crazy Green Studios will include work and activities dedicated to supporting the Empty Bowls program and raising funds and awareness for hunger eradication. Activities will include decorating bowls for use in an Empty Bowl event, and 100% of designated 'Empty Bowls' sales will benefit Manna Food Bank.

Event producers have already started identifying community groups that might be interested in participating in the monthly Market, and any group that feels they may benefit in having a booth for a month are welcome to contact producers at the information shown below.
